1. Overview

The YSF Report Generator is a browser-based tool that helps researchers prepare their self-evaluation for the Young Scientist Award for Research, administered by the Young Scientists' Forum (YSF) of Sri Lanka.

The tool automatically fetches your publications from OpenAlex, classifies each paper into the appropriate YSF scoring section using Scimago journal rankings, and generates a print-ready PDF report.

Key features

- Automatic publication fetch via OpenAlex Author ID
- Scimago Q1/Q2/Q3/Q4 quartile detection from 51,000+ journals
- Manual entry for §1.9–§1.22, §2, §3, §4 items with editable role and scope
- Score calculation with caps and First/Corresponding author ×2 multiplier
- Interactive screen tables — edit pts, role, scope directly in the table
- Section ribbons showing live total pts per section
- JSON save and load — no data stored in the browser
- Print-ready report: cover page, application form, scoring table, publication list

2. Getting Started

Required files

File	Description
ysf_report.html	The main tool — open in any browser
scimago_issn.json	Scimago 2025 journal rankings (~800 KB)

Note: If scimago_issn.json is missing, the tool still works but cannot determine quartiles — papers will be classified as §§1.3 or 1.4.

Opening the tool

Double-click **ysf_report.html** to open it in your browser. No installation or internet connection is required for local use. For the online version, visit:

https://alawatugoda.github.io/ysf-award/ysf_report.html

3. Fetching Publications (OpenAlex)

Finding your OpenAlex Author ID

- Go to https://openalex.org/authors
- Search for your name
- Click your profile — the ID appears in the URL: *openalex.org/A5056029451*
- Copy the ID (starts with A followed by numbers)

Using the fetch feature

- Enter your OpenAlex Author ID in the Author ID field
- Set the date range (From and To) for the award period
- Click **Fetch** — the tool downloads your profile, fetches all publications, detects first/corresponding authorship, looks up each journal's quartile, and classifies each paper into the appropriate section

Note: Fetching may take 30–60 seconds depending on the number of publications.

4. Understanding the Sections

§1.1–§1.8 — Publications (auto-classified)

Section	Criteria	Base pts	1st/Corr	Cap
§1.1	Q1 or Q2 journal	6	×2 = 12	—
§1.2	Q3 or Q4 journal	4	×2 = 8	—
§1.3	Other indexed journal	2	×2 = 4	—
§1.4	Non-indexed journal	1.5	×2 = 3	15 pts
§1.5	Conference paper	1	×2 = 2	10 pts
§1.6	Conference abstract	0.5	×2 = 1	10 pts
§1.7	Book	3	×2 = 6	—
§1.8	Book chapter	2	×2 = 4	—

Adjusting classifications

Each paper has a **Move** → dropdown to change its section. You can also drag and drop rows within or between sections. Click the **✓ 1st/Corr / Co-author** button to toggle authorship.

Conference papers from OpenAlex are initially placed in §1.5. Check the **Abs?** checkbox on a row to move it to §1.6 (abstract, 0.5 pts).

5. Adding Papers Manually

Use the Add Paper section for papers not found in OpenAlex.

Using a DOI

- Enter a DOI and click **Fetch**
- The tool tries OpenAlex first, then Crossref
- If found, fields are auto-filled and the section is set based on Scimago
- If not found, fill the fields manually

Manual entry fields

Field	Notes
Title *	Required
Authors	Comma-separated names
Year	Publication year
Venue	Journal, conference, or publisher name
ISSN	Optional — triggers Scimago lookup; section auto-selected if match found
ISBN	Optional — for books and book chapters
Section	Select the appropriate YSF section (§1.1–§1.8)
1st/Corr	Toggle whether you are first or corresponding author

6. Section 1 — Other Research Activities (§1.9–§1.22)

Items for §1.9–§1.22 are entered in the sidebar under **§1 — Other Items**. Each item appears as an individual card in the screen table, as a continuation of the §1 publication cards.

§1.9/§1.10 — Editorial board membership

Section	Role	Pts
§1.9 (Indexed)	Member	4
	Assoc. Editor	×1.5 = 6
	Chief Editor	×2 = 8
§1.10 (Non-indexed)	Member	2
	Assoc. Editor	×1.5 = 3
	Chief Editor	×2 = 4

In the screen table, the Role column shows a dropdown select. Changing the role automatically updates the pts.

§1.19–§1.21 — Supervision

Section	Principal Supervisor	Other Supervisor
§1.19 Ph.D.	4 pts	2 pts
§1.20 M.Phil.	2 pts	1 pt
§1.21 MSc.	1 pt	0.5 pts

*In the screen table, click the ✓ **Principal / Other Sup.** button to toggle the role. Points update automatically.*

Other §1 items

Section	Criteria	Pts	Cap
§1.11	Reviewer — Indexed journals	1	4 pts
§1.12	Reviewer — Non-indexed journals	0.5	2 pts
§1.13	International Research Award	6	—
§1.14	National Research Award	4	—
§1.15	University/Institutional Award	2	6 pts
§1.16	International Research Grant	4	—
§1.17	National Research Grant	3	—
§1.18	University/Institutional Grant	2	—
§1.22	Patent (National or International)	5	10 pts

7. Section 2 — Science Communication & Outreach

Section 2 items are entered in the sidebar. Each subsection appears as an individual card in the screen table under the **§2 — Science Communication & Outreach** ribbon.

Section	Criteria	Local	Intl (×1.5)	Cap
§2.1	Main coordinator/organizer	3 pts	4.5 pts	9 pts
§2.2	Other organizing position	2 pts	3 pts	6 pts
§2.3	Session chair	0.5 pts	0.75 pts	5 pts
§2.4	Newsletter/magazine article	0.5 pts	—	3 pts
§2.5	Resource person	1 pt	—	5 pts
§2.6	Community/professional activities	1 pt	—	5 pts
§2.7	Professional membership	1 pt	—	5 pts

*For §2.1–§2.3, click the ■ **Local** / ■ **Intl** button in the screen table to toggle scope. Points update automatically.*

§2.8 — UGC Research Performance Tier

Select your **Field of Specialization** and enter your **Google Scholar h-index**. The tier is calculated automatically based on UGC Circular No. 05/2018.

Field Group	T2	T3	T4	T4*	Pts
Medical Sciences (Group 1)	h≥2	h≥7	h≥13	h≥20	4/6/8/10
Pure Sciences (Group 2)	h≥2	h≥6	h≥11	h≥17	4/6/8/10
Engineering / IT / Agriculture (Group 3)	h≥2	h≥5	h≥9	h≥14	4/6/8/10
Humanities / Law / Management (Group 4)	h≥1	h≥4	h≥7	h≥11	4/6/8/10

*Use your **Google Scholar h-index**, not the OpenAlex h-index — they may differ.*

8. Sections 3 & 4 — National & International Service

Section	Criteria	Pts	Max
§3.1	National level policy development	3	10 pts
§3.2	Member of national committee	2	(combined)
§4.1	International level policy development	4	10 pts
§4.2	Member of international committee	3	(combined)

9. Screen Table Features

All manual item sections display an interactive screen table with these columns:

Column	Description
#	Item number
Pts	Editable number field — type to change
Description	Editable text field — syncs with sidebar
Role	§1.9/§1.10: dropdown (Member / Assoc. Editor / Chief Editor) §1.19–§1.21: ✓ Principal / Other Sup. toggle button
Scope	§2.1–§2.3: ■ Local / ■ Intl toggle button
✕	Remove item

All edits in the screen table sync back to the sidebar DOM instantly. Role and scope changes automatically update the pts field.

Section ribbons

Each section (§1, §2, §3, §4) has a blue ribbon header showing the section title and the live total pts on the right side. The ribbon updates as you add or change items.

10. Saving and Loading Data

The tool does not save data in your browser. Always export your data before closing.

Saving

Click ■ **Save** in the toolbar. A file named *YSF_Award_YourName.json* will be downloaded.

Loading

Click ■ **Open** and select your previously saved file. All data — publications, manual entries, personal details, role and scope settings — will be restored correctly.

Tip: Save regularly, especially after adding items or adjusting roles and classifications.

11. Printing the Report

Click ■■ **Print / PDF** to open the browser print dialog. The report includes:

Page	Content
1	Cover page — applicant details, score summary, eligibility status
2	Research Activities Summary (from the Summary field)
3	Official application form — personal details, referees, signature block
4	Self-Evaluation scoring table — all criteria with marks
5+	Publication & item tables — §1–§4, section by section with subtotals

Print layout

Each section (§1, §2, §3, §4) starts with a navy ribbon showing the section name and total pts. Subsections have subtotal lines. The layout is always light/white regardless of screen theme.

Saving as PDF

In the print dialog, select **Save as PDF** as the destination. Use A4 paper size with default margins.

12. Scimago Data Updates

Scimago releases updated journal rankings annually. The online version is updated automatically via a GitHub Actions workflow.

If you are using the tool locally, download the latest *scimago_issn.json* from the GitHub repository and replace the file in your local folder.

Updating manually (administrators)

- Download the latest CSV from scimagojr.com/journalrank.php
- Upload it to the alawatugoda/ysf-award repository as scimagojr_YYYY.csv
- Go to **Actions** → **Update Scimago Data** → **Run workflow**
- The workflow generates a new scimago_issn.json and commits it automatically

13. Troubleshooting

Problem	Solution
Papers not fetching	Check your OpenAlex Author ID (e.g. A5056029451). Make sure the date range covers your publication period.
Wrong quartile / section	Use the Move → dropdown to correct the section. Scimago rankings change yearly.
Journal shows as §1.3 instead of Q-tanked	The journal may not be in the Scimago 2025 database. Verify the ISSN on scimagojr.com.
DOI not found	Some papers are not in OpenAlex or Crossref. Use manual entry with the ISSN.
Role shows “—” after JSON load	Ensure you are using the latest version of ysf_report.html. Re-save your JSON and reload.
Field of Specialization resets to Agricultural and Biological Sciences	Fixed in v2.0 – each field now has a unique save code. Re-save your JSON with the latest version.
“Not valid JSON” error on load	The JSON file may be corrupted. Try reloading the page and using a previous save.
Scimago data not loading	Ensure scimago_issn.json is in the same folder as ysf_report.html. The file must not be renamed.
